An addition to Vicoustic's Flexi Panel A family, the Flexi Panel A40 is truly effective when applied in any type of space. A scientific combination of material, absorption surface and cavity thickness means that the panel's absorption performance is extremely efficient in the treatment of first reflections.

Flexi Panel A40 offers you the best performance on medium and high frequencies, this panel represents an adaptation to the industrial sector, providing one of the best acoustic solutions on the market, at an attractive price. It also has a unique characteristic - when placed in a sequence, the panel junctions become undetectable, allowing you to place a continuous pattern on large surfaces.

Main Info

Ref: B00174
EAN13: 5600301843662
HS-Code: 39211310
Dimensions: 600.0 x 600.0 x 40.0 mm
Scratch Resistance: No
Washable: No

Performance

Functionality: Absorption
Absorption Frequency: High
alpha with Shape Indicators: 0.60 (H)
NRC: 0.650
Fire Class European (EN): Euroclass F
Fire Class France (NF P): M1

Shipping

Units Per Box: 12 boxes
Box Dimensions: 620.0 x 620.0 x 495.0 mm

Raw Materials

Material: Foam
Foam Type: M1

Technical File

Design

Edges: Angled

Installation

Place: Wall, Ceiling
Fixing Type: Glued
