The Flat Panel consists of acoustic foam with high resistance fire rating, providing a wide range of applications in the aesthetic point of view. The Flat Panel has been specially developed to be used in restaurants, offices and meeting rooms, combining acoustic efficiency and an elegant appearance, now in rectangular (120 x 60 cm) and square panels (60 x 60 cm).

It is designed to perform mainly on medium and high frequencies, providing a cost-effective solution for ceilings and walls.

Flat Panel Tech - (Vicoustic Foam Tech):

Made of Basotect® foam, it's long-term resistance to high temperatures and excellent fire characteristics are based on the use of melamine resin. The high nitrogen content of the resin is responsible for the extremely flame-resistant property of the foam without the need for fire retardants, making it particularly suitable for applications with high fire safety requirements.

Features:

- Low weight,
- Low temperature flexibility,
- Good sound absorption capacity,
- Good thermal insulation properties,
- Constant physical properties over a wide temperature range, application temperature up to 240 °C [465 °F],
- Flame resistant.

Please notice that the dimensions of this panel have a tolerance margin of ± 3 mm

Main Info

Ref: B01385
EAN13: 5600301860959
HS-Code: 39211310
Dimensions: 1195.0 x 595.0 x 20.0 mm
Scratch Resistance: No
Washable: No

Performance

Functionality: Absorption
Absorption Frequency: Medium
alpha with Shape Indicators: 0.70 (H)
NRC: 0.650
Fire Class European (EN): Euroclass C - s2, d0

Technical File

Flat Panel 120.2 Tech F VB

Fire Class Germany (DIN): B1
Fire Class France (NF P): M1

Shipping

Units Per Box: 16 boxes
Box Dimensions: 1230.0 x 630.0 x 340.0 mm
Box Weight: 6.2 kg

Raw Materials

Material: Fabric, Foam
Foam Type: Tech

Design

Fabric Color: Black
Edges: Angled

Installation

Place: Wall, Ceiling
Fixing Type: Adhesive
