Vicoustic's flagship Wavewood panel has been specifically developed to treat acoustic problems without destroying a room's ambience, or over-deadening the sound. It can be used in control rooms, broadcast studios, live rooms where a range of instruments and voices are recorded, rehearsal rooms and other performance spaces.

Wave Wood is made from a combination of acoustic foam and wood. Its instantly recognizable design results from unique research based on the acoustic properties of the wood and foam combined with non-linear sequential cavities that enable Wave Wood to act as both an absorber and diffuser. It is particularly effective in treating medium and high frequencies as well as solving issues such as flutter echoes. Wave Wood can also be highly effective in controlling low frequencies when fitted in the corners of a room and used as a bass trap.

The panel's elegant design enhances the visual appearance of any room, with five different wood finishes available to match a range of studio interiors.

Now available in 1200 x 600 x 64 mm panels, the Wave Wood 1200 has the same perforated surface and performance but is especially indicated for spacious areas.

About Vicoustic's Absorption and Reflection Control System (ARCS):

ARCS is Vicoustic's unique research model that has formed the basis for developing hybrid products such as Wave Wood. Click [here](#) to find out more about ARCS. Applications:

Recording and Broadcast Studios, Post Production Studios, Performance Spaces, Rehearsal Rooms.

## Main Info

Ref: B00113

EAN13: 5600301843570

HS-Code: 39211310

Dimensions: 120.0 x 600.0 x 64.0 mm

Scratch Resistance: No

# Technical File

Washable: No

## Performance

Functionality: Absorption  
Absorption Frequency: Medium  
Absorption Class: C  
alpha with Shape Indicators: 0.65  
NRC: 0.700  
Fire Class European (EN): Euroclass F  
Fire Class France (NF P): M1

## Shipping

Units Per Box: 4 boxes  
Box Dimensions: 1230.0 x 630.0 x 290.0 mm

## Raw Materials

Material: Wood, Foam  
Wood Type: Mdf Painted  
Foam Type: M1

## Design

Wood Color: Nordik  
Edges: Angled

## Installation

Place: Wall, Ceiling  
Fixing Type: Glued
