The Cinema Square Pro is an enhanced model of the Cinema Square. The acoustic wall panel is set with an elegant wooden frame, available in three wood finishes: Light Brown, Wenge and White.

It's main characteristic, much like the Cinema Square, is the removable fabric, but due to the premium framework, the fabric is easily tucked between the foam and wood, without the need for velcro to hold it in place.

The Cinema Square Pro is available in two sizes 600x600x40 mm and 1200x1200x40 mm and in the colored premium fabric.

Cinema Square combines acoustic efficiency with elegant appearance. The panel's wood frame is packed with optimum density acoustic foam and covered in fabric. A choice of colours is available to match room interiors. Designed to perform mainly on medium and high frequencies, Cinema Square is a cost-effective solution for both ceilings and walls (where it can also be used to good effect in improving low frequencies). It's M1 (European) fire rating makes it highly suitable for use in a variety of public spaces.

Cinema Square Premium - (Vicoustic Foam) : A polyurethane foam with extraordinary acoustic properties and classified in M1 class of fire reaction. Known for it's flexibility and versatile applicability, this durable material is ideal for rigid foam insulation panels.

- Efficient absorption
- Easy to install
- Excellent value for money
- Fabrics can be removed and washed.

Applications:

Listening Rooms, Home Theatres, Recording and Broadcast Studios, Post Production Studios, Performance Spaces, Rehearsal Rooms, Conference and Teleconference Rooms, Public Spaces, Auditoriums, etc.
