

The VicVibro QH-R is an antivibration hanger for gypsum board ceilings. It is made from stainless steel and consists of a quick and easy fixing system on standard ceiling profiles with dimensions 60x27 mm (for false ceilings) according to DIN 18182-1. Therefore the working cost is decreased, and speeds up the installation procedure.

The VicVibro QH-R hanger consists of a high technology polyurethane foam, with semi-closed cells, with the trademark Regufoam®. Application Sound Insulation for false ceilings.
