

Anti-vibration ceiling hangers for common ceiling profiles. The installation procedure is extremely easy, speeding up the work, and reducing working costs. They have security devices to guarantee a safe installation, and contain a new quick leveling system.

Advantages The main advantage of this ceiling hanger is that you can quickly install a false ceiling, achieving a high quality finish, with minimum effort and costs. Exceptional isolation performance. If you want to build an angled ceiling, you can easily adjust the ceiling hangers. **Characteristics** Ceiling profile type: normal “C” ceiling profiles Steel bar diameter: available in 6mm and 8mm **Installation Safety** Available with 1 or 2 security devices to guarantee a safe installation.
