Designed for large areas, this WaveLine BC aims to leverage an existing and accessible technology by maximizing its potential at an acoustic and aesthetic level. Besides the advantages of using a typical false ceiling structure, placing Basotect® foam ensures the best sound absorption and provides an enormous added value to the WaveLine BC.

Taking advantage of an increasingly demanding industrial segment, Vicoustic has launched a innovative acoustic panel for false ceilings. Combining the standard clip-in system, with Vicoustic's know-how in design and performance, the new WaveLine BC allows you to easily and quickly install a High End panel to a conventional suspended ceiling.

## Main Info

Ref:  
EAN13: 0  
HS-Code: 0  
Dimensions: 595.0 x 595.0 x 10.0 mm  
Scratch Resistance: No  
Washable: No

## Performance

Functionality: Absorption  
Absorption Frequency: Medium  
NRC: 0.000  
Fire Class European (EN): Euroclass B

## Shipping

Units Per Box: boxes

## Row Materials

Material: Wood, Metal, Fabric, Foam  
Wood Type: Melamine  
Fabric Type: Fiberglass Veil  
Foam Type: Rockwool

## Design

Wood Color: Melamine Light Brown

*Technical File*

## Installation

Edges: Leveled

Place: Wall, Ceiling

Fixing Type: Standard 15mm, Standard 24mm, Clip In
