Designed for large areas, this product aims to leverage an existing and accessible technology by maximizing its potential at an acoustic and aesthetic level. Besides the advantages of using a typical false ceiling structure, placing Basotect® foam ensures the best sound absorption and provides an enormous added value to the Wavewood BC.

Taking advantage of an increasingly demanding industrial segment, Vicoustic has launched a innovative acoustic panel for false ceilings. Combining the standard clip-in system, with Vicoustic's know-how in design and performance, the new Wave Wood BC allows you to easily and quickly install a High End panel to a conventional suspended ceiling.

Main Info

Ref:
EAN13: 0
HS-Code: 0
Dimensions: 595.0 x 595.0 x 10.0 mm
Scratch Resistance: No
Washable: No

Performance

Functionality: Absorption
Absorption Frequency: Medium
NRC: 0.000
Fire Class European (EN): Euroclass B

Shipping

Units Per Box: boxes

Row Materials

Material: Wood, Metal, Fabric, Foam
Wood Type: Melamine
Fabric Type: Fiberglass Veil
Foam Type: Tech

Design

Wood Color: Melamine Light Brown
