In order to guarantee an efficient insulation procedure, Vicoustic recommends the use of sound proof doors to maximize sound insulation. Even if your room has the best wall, roof and floor insulation, sound can be transmitted through doors.

This sound proof door is 56mm thick, and includes a rim all along its periphery. It consists of a heavy core and two absorbent chambers completely filled with M0 fire classification material M0. The door has a manual aluminum open/close wedge-type system with a dual seal in a special profile all along the periphery. The door can have anchor bolts and/or drill holes in the rim for fastening with screws. Common Applications: Music Studios, Cinema Halls, Auditoriums, Machine rooms, and industrial spaces that require high acoustic insulation.

<b>Finish</b>		<b>Options</b>					
	Wood		Keylock	Anti-Panic Bar	Circular Double Window	Without Floor Frame	Auto-Close System

## Main Info

Ref: U00082  
EAN13: 5600301842771  
HS-Code: 73083000  
Dimensions: 800 x 2000 mm  
Number of Doors: 1 door  
Gross Weight: 91.00 kg

## Performance

Fire Resistance: 30 minutes  
RW Reduction: 46 dB

## Installation

Outer Measurements: 970 x 2170 mm  
Recommended Measurements for the construction span: 980 x 2180 mm

## Shipping Info

Units Per Pallet: 1 door  
Pallet Dimensions: 2230 x 1030 x 500 mm  
Pallet Volume: 1.15 m3  
Pallet Weight: 180.00 kg
