The Suspended Baffle Premium technique is excellent for reducing machinery noise and other sound sources. It eliminates reflections partially or totally, as well as reverberations from the ceiling, or other surfaces. The absorption coefficient depends on the panel configuration, surface distance and panel distance per m².

Vicoustic's research has revealed that perforated foam performs better compared with standard cut foam. A perforated, 40mm thick panel gives the same results as a 70 mm thick standard panel. This is because in addition to increasing the surface absorption, it also works as a sound trap, improving sound absorption panel including Suspended Baffle Premium.

The Suspended Baffle Premium can also have a white or black cover. The combination of the acoustic foam and the cover gives the Suspended Baffle Premium a fire rating Euro Class B s1d0.Applications:

Gym, Manufactory, Performance Spaces, Rehearsal Rooms, Conference and Teleconference Rooms, Public Spaces, Auditoriums, etc.

Main Info

Ref: B00430

EAN13: 5600301847257

HS-Code: 39211310

Dimensions: 1200.0 x 600.0 x 40.0 mm

Scratch Resistance: No

Washable: No

Technical File

Suspended Baffle 120.4 Premium Ref.87

Performance	Functionality: Absorption
	Absorption Frequency: Medium
	Absorption Class: B
	alpha with Shape Indicators: 0.8
	NRC: 0.800
	Fire Class European (EN): Euroclass F
Shipping	Fire Class France (NF P): M1
Shipping	Units Per Box: 6 boxes
	Box Dimensions: 1230.0 x 630.0 x 290.0 mm
Row Materials	
	Material: Fabric, Foam
Design	Foam Type: M1
Design	Fabric Color: Natural White
	Edges: Angled
Installation	
	Place: Ceiling
Installation	Fixing Type: Screwed
