In order to guarantee an efficient insulation procedure, Vicoustic recommends the use of sound proof doors to maximize sound insulation. Even if your room has the best wall, roof and floor insulation, sound can be transmitted through doors.

This sound proof door is 56mm thick, and includes a rim all along its periphery. It consists of a heavy core and two absorbent chambers completely filled with M0 fire classification material M0. The door has a manual aluminum open/close wedge-type system with a dual seal in a special profile all along the periphery. The door can have anchor bolts and/or drill holes in the rim for fastening with screws.

Common Applications:

Music Studios, Cinema Halls, Auditoriums, Machine rooms, and industrial spaces that require high acoustic insulation.

Finish

Grey Enamel Primer

Options

Keylock

Antipanic Bar

Circular Double Window

Without Floor Frame

Autoclose System

Main Info

Ref: U00075
EAN13: 5600301842702
HS Code: 73083000
Dimensions: 700 x 2000 mm
Number of Doors: 1
Gross Weight: 68.00 kg

Performance

Fire Resistance: 30 minutes
RW: 46 dB

Installation

Outer Measurements: 840 x 2140 mm
Recommended Measurements for the construction span: 855 x 2150 mm

Shipping

Units per Pallet: 1
Pallet Dimensions: 2200 x 900 x 480 mm
Pallet Volume: 0.95 m3
Pallet Weight: 135.80 kg
