Designed for large areas, this product aims to leverage an existing and accessible technology by maximizing its potential at an acoustic and aesthetic level. Besides the advantages of using a typical false ceiling structure, placing Basotect® foam ensures the best sound absorption and provides an enormous added value to the Wavewood BC.

Taking advantage of an increasingly demanding industrial segment, Vicoustic has launched a innovative acoustic panel for false ceilings. Combining the standard clip-in system, with Vicoustic's know-how in design and performance, the new Wave Wood BC allows you to easily and quickly install a High End panel to a conventional suspended ceiling.

## Main Info

Ref: B01054  
EAN13: 5600301856686  
HS-Code: 44101110  
Dimensions: 600.0 x 600.0 x 10.0 mm  
Scratch Resistance: No  
Washable: No

## Performance

Functionality: Absorption  
Absorption Frequency: Medium  
NRC: 0.000  
Fire Class European (EN): Euroclass B - s2, d0

## Shipping

Units Per Box: 8 boxes  
Box Dimensions: 620.0 x 620.0 x 135.0 mm  
Box Weight: 20.2 kg

## Row Materials

Material: Wood, Metal, Fabric  
Wood Type: Melamine  
Fabric Type: Fiberglass Veil

*Technical File*

## Design

Wood Color: Melamine Light Brown  
Fabric Color: Natural White

## Installation

Place: Wall, Ceiling  
Fixing Type: Clip In
