The Cinema range of absorption panels provides a flexible solution for sound control across a multitude of applications. Combining discrete, modern design with maximum acoustic efficiency, Cinema panels are commonly used to control sound reflections and excess reverberation in all kinds of rooms, helping you maximize the acoustic performance of your listening space.

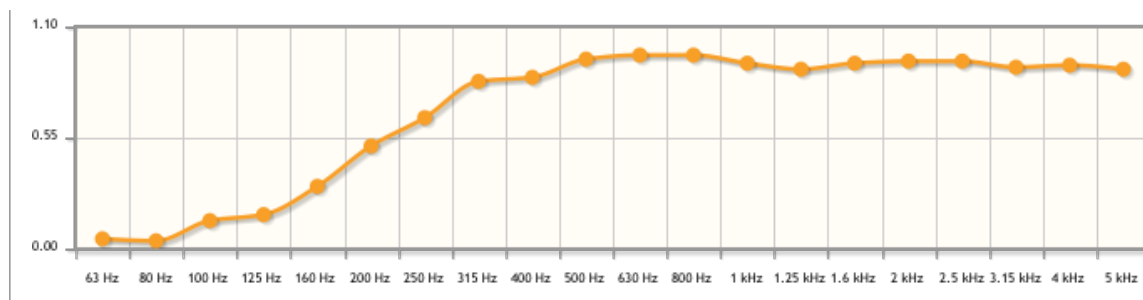

Cinema Round performs mainly on medium and high frequencies. When positioned a few centimeters from the surface of the wall, the panel can also be highly efficient in the treatment of medium frequencies and the improvement of low ones.

- Simple design
- High absorption efficiency
- Easy to install

Applications:

Listening Rooms, Home Theaters, Recording and Broadcast Studios, Post Production Studios, Performance Spaces, Rehearsal Rooms, Conference and Teleconference Rooms, Public Spaces, Auditoriums, etc.
