With the Wave Wood design a new diffuse product arises. Simulating a QRD and MLS sequence the new Wavewood Diffuser is an ideal solution to those who search balanced sound ambiances that simultaneously control the exceeding energy in a room, flutter echoes, and still maintain a living and bright sound.

With the Wave Wood design a new diffuse product arises. Simulating a QRD and MLS sequence the new Wavewood Diffuser is an ideal solution to those who search balanced sound ambiances that simultaneously control the exceeding energy in a room, flutter echoes, and still maintain a living and bright sound. It is particularly effective in treating medium and high frequencies.

There are two versions of the panel: one with 44mm and another with 60mm of width. The first one is ideal for Music & Broadcast / Hi-Fi & Home Cinema and the second one to the Building & Construction sector.

Main Info

Ref:
EAN13: 0
HS-Code: 0
Dimensions: 595.0 x 595.0 x 10.0 mm
Scratch Resistance: No
Washable: No

Performance

Functionality: Diffusion
Absorption Frequency: Medium
NRC: 0.000
Fire Class European (EN): Euroclass B

Shipping

Units Per Box: boxes

Raw Materials

Material: Wood
Wood Type: Melamine

Design

Wood Color: Melamine Nordik

Technical File

Installation

Edges: Leveled

Place: Wall, Ceiling

Fixing Type: Standard 15mm, Standard 24mm, Clip In
