Designed for large areas, this WaveLine BC aims to leverage an existing and accessible technology by maximizing its potential at an acoustic and aesthetic level. Besides the advantages of using a typical false ceiling structure, placing Basotect® foam ensures the best sound absorption and provides an enormous added value to the WaveLine BC.

Taking advantage of an increasingly demanding industrial segment, Vicoustic has launched a innovative acoustic panel for false ceilings. Combining the standard clip-in system, with Vicoustic's know-how in design and performance, the new WaveLine BC allows you to easily and quickly install a High End panel to a conventional suspended ceiling.

Main Info

Ref:

EAN13: 0 HS-Code: 0

Dimensions: 595.0 x 595.0 x 10.0 mm

Scratch Resistance: No

Washable: No

Performance

Functionality: Absorption

Absorption Frequency: Medium

NRC: 0.000

Fire Class European (EN): Euroclass B

Shipping

Units Per Box: boxes

Row Materials

Material: Wood, Metal, Fabric, Foam

Wood Type: Melamine Fabric Type: Fiberglass Veil Foam Type: Rockwool

Design
