Wavewood BC Diffuser CW Walnut

With the Wave Wood design a new diffuse product arrises. Simulating a QRD and MLS sequence the new Wavewood Diffusor is an ideal solution to those who search balanced sound ambiences that simultaneously control the exceeding energy in a room, flutter echoes, and still maintain a living and bright sound.
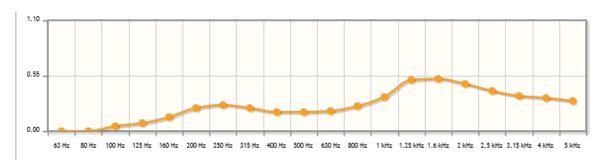

With the Wave Wood design a new diffuse product arrises. Simulating a QRD and MLS sequence the new Wavewood Diffusor is an ideal solution to those who search balanced sound ambiences that simultaneously control the exceeding energy in a room, flutter echoes, and still maintain a living and bright sound. It is particularly effective in treating medium and high frequencies.
There are two versions of the panel: one with 44mm and another with 60mm of width. The first one is ideal for Music & Broadcast / Hi-Fi & Home Cinema and the second one to the Building & Construction sector.
